

Ladies and Gentleman!

We invite you to participate in

The 8th International Specialized Exhibition for Electrical Engineering, Energy-Saving and Innovation Technologies with exhibitors from Germany, Ireland, China, Russia, Slovenia and Ukraine.

Exhibition Profile

- Electrical equipment and materials for electric power production, transmission, distribution and utilization (electric machines and devices, high voltage equipment, low voltage equipment, power transformers, cables, conductors, relay protection and automation)
- Modern lighting facilities and devices, wiring products and accessories
- Industrial heating devices, electro heat and welding equipment
- Renewable and small-scale power generation, power recycling
- Devices and methods of electric power metering and control
- Self-contained power supply sources
- Electric tools and equipment for electrical repair and maintenance
- Energy efficient equipment and technology in the electric power industry

Participation Cost:

Standard space: 125 euro + VAT%

Standard '+' space: 137 euro + VAT%

Registration fee: approx. 260 euro + VAT%

Insurance fee: 1,5 euro per sq.m (without VAT %)
