

International Chemical Assembly'2010

**Ladies and Gentleman!
We invite you to participate in the**

International Chemical Assembly'2010

September 27 – 30

3d Exhibition

Expocentre Fairgrounds, Moscow

- The Latest Trends in Production of Paints and Coatings
- Polymers of 21st Century

Exhibitor Profile:

- Equipment for the chemical and petrochemical industries
- Chemical raw materials
- Base and non-organic chemicals
- Organic synthesis
- Agro chemistry
- Chemical technologies, research
- Plastics and processing of plastics. Equipment for production of press moulds and plastic goods. Press forms
- Raw materials and equipment for paint and coatings production
- Materials and equipment for production of synthetic rubber, mechanical rubber and tires
- Materials and equipment for production of man-made fibres and threads
- Analytical instruments. Laboratory equipment and furniture
- Reagents and catalysts
- Chemicals for municipal services
- Environmental conservation, waste recycling
- Packaging
- Logistics and special purpose transport
- Household chemicals
- Production safety
- Educational institutions, training centres
