

We invite you to participate in

Meditec Clinika 2010

4th International Trade Fair for Medical Equipment and Technology

The Indian Healthcare Industry is all set for a steep growth. The number of foreign players in the country in this Industry is growing. India is being recognized as global destination for the healthcare industry.

- The Current Medical devices and equipment market is around US \$ 3.15 billion. It is expected to grow steadily at around 18% annually.
- India represents the world's second largest populated country. Hence 65% of the healthcare industry is still to be developed in India.
- The Healthcare industry is expected to grow at 15% p.a., to reach US\$79 billion by FY 2012
- Around 76 Million Indians are expected to be above 65 years of age by 2012, thereby increasing the prevalence of several chronic diseases.
- India, with one of largest population with diabetes and cardiovascular diseases, has created a huge opportunity for healthcare products and services for these indications.
- The large-scale prevalence of both infectious and lifestyle-related diseases has created a big opportunity for the IVD market in India.
- Strong human resources and cost advantage has enabled India to emerge as a strong outsourcing destination.
